# Ultra HiFi Equipment Deserves Ultra Support: the Nu-Vista RACK

Nu-Vista's high-end products are mechanically superior. The Nu-Vista Ultra Equipment Rack offers the perfect ultra massive support. A total of 300 KG of mass. Fully solid stainless-steel columns plus ultra-dense MDF boards provide ultimate stability and absorption of any vibration.

# Designed to stand perfect and precise. Made in Europe.

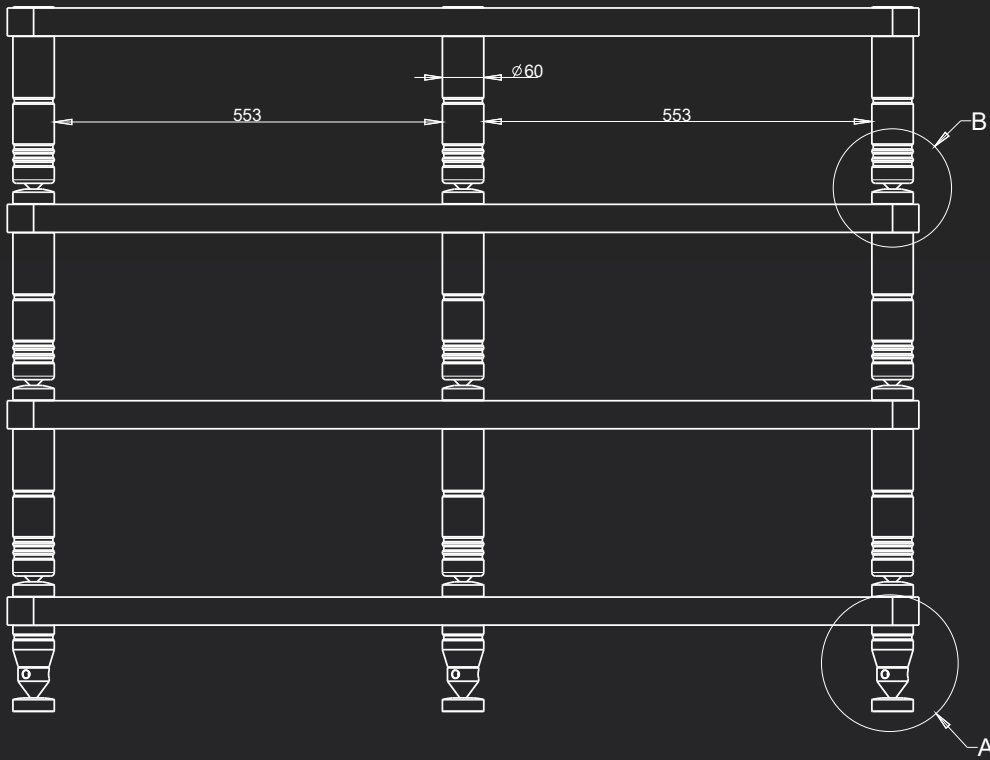

Our rack is crafted with unparalleled precision using state-of-the-art CNC machines. Each piece is meticulously hand-lacquered and hand-polished to achieve a finish of luxurious perfection. Designed to complement dream audio products, these racks offer a spectacular setting that blends technical mastery with timeless elegance.

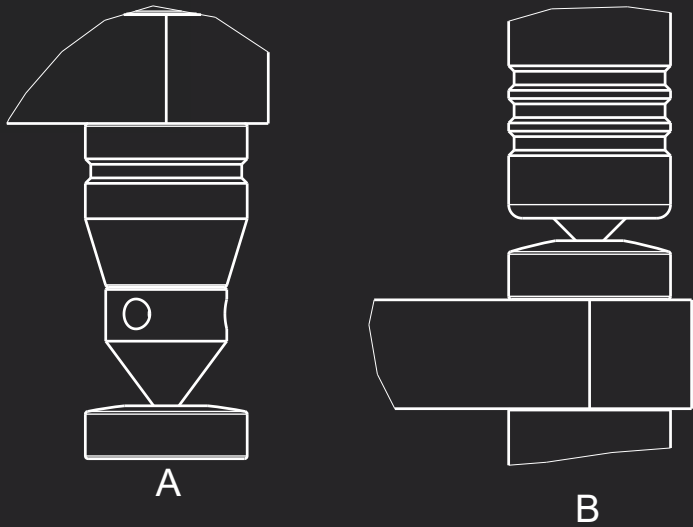

# Big, Bold and Heavy.

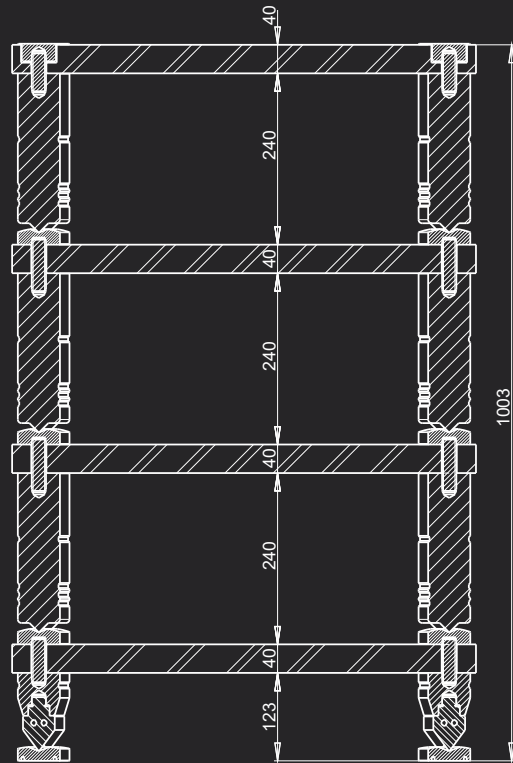

The robust structure, combined with heavy-duty materials, adds a solid presence to your setup while maintaining a sleek, refined appearance. The carefully calculated dimensions allow for optimal spacing between components, reducing interference and promoting airflow.

## Dampens almost everything. Except your enthusiasm.

Our rack is not only visually stunning but also engineered to deliver exceptional performance. Precision construction and carefully selected materials work together to minimize vibrations and resonance, ensuring your audio components operate in optimal conditions. By isolating equipment from external disturbances, our racks preserve the integrity of the sound, allowing you to experience your music exactly as it was intended.
