Ultra HiFi Equipment Deserves Ultra Support

Nu-Vista's high-end products are mechanically superior. The Nu-Vista Ultra Equipment Rack offers the perfect ultra massive support. A total of 300 KG of mass. Fully solid stainless-steel columns plus ultra-dense MDF boards provide ultimate stability and absorption of any vibration.

Designed to stand perfect and precise

Our rack is crafted with unparalleled precision using state-of-the-art CNC machines, fully handmade in Europe. Each piece is meticulously hand-lacquered and hand-polished to achieve a finish of luxurious perfection. Designed to complement dream audio products, these racks offer a spectacular setting that blends technical mastery with timeless elegance.

Big, Bold and Heavy

The robust structure, combined with heavy-duty materials, adds a solid presence to your setup while maintaining a sleek, refined appearance. The carefully calculated dimensions allow for optimal spacing between components, reducing interference and promoting airflow.
