„This will be the ultimate amp for many audiophiles!“

This is a really impressive, highly likeable amplifier. It brings excellent all-round sound together with bags of power in a very neat case, at a very reasonable price indeed. There´s very little I can think of at or near the money that does so much, so well, in such a self-effacing and effortless way. Think of this as a budget „superfi“ amplifier giving you a sound that´s best in the world, at about a tenth of the price - it brings absolute power to the people, and a price that won´t quite corrupt you.
